Dupuy, Ollie	Patrick, Mattie	Young, Willie
Ellett, Rivers		

Total Enrollment—526. Boarding Pupils—402

HILLMAN COLLEGE.

We call the special attention of our friends, and especially of our former pupils, to the fact that we now own Hillman College, Clinton, Mississippi, just as we own Blue Mountain College. We have added greatly to its material equipment. The buildings have steam heat, electric light and other modern conveniences. Dr. W. T. Lowrey is President, and with an efficient corps of carefully selected teachers, is offering excellent advantages in Vocal and Instrumental Music, Art, Expression, Literary, Linguistic and Scientific studies.

N. B.—Beginning early in every session, we have many inquiries about the earliest date that deposits will be received for the next session. Therefore, we announce here that our books will not open for engagements for the session of 1911-12 until Monday, May 1, 1911. Deposits in letters addressed to us and postmarked April 29th or 30th or May 1st will be received upon the same basis as deposits made in our office on the last named date, and we ask that none mail such letters earlier than the first date named. Money sent to pupils to be deposited when our books open may be mailed earlier if desired.

ROOM RESERVATIONS.

MUCH of the time for several years our boarding departments have been full to overflowing, and many girls who have been anxious to enter our school have been unable to get places. In fact, we have been able to receive only about half of those who wanted room. These facts show that our school has reached a stage where it is imperative that we know with practical certainty whom to expect at the openings of our sessions. Simply to request that a room be saved is an easy thing, and a large per cent. of the girls who ask schools to reserve rooms for them never go to occupy the rooms. Therefore, to reserve our rooms simply for the asking would, we think, almost certainly mean that all rooms would be "engaged" for each session long before the previous session closed. We would then have to answer all future applicants that lack of room would forbid our taking them. Now, if we did this, and twenty to thirty of those who had rooms reserved were to fail to come, great injustice would be done, both to us, who had these vacancies that could have been so easily filled, and to the girls who had been denied the advantage of our school because those who did not come had the rooms engaged. In view of these things, we again adopt the following plan, viz:

To reserve room for a pupil in our Industrial Home, a deposit of \$5.00 is required; to reserve room for a pupil in the other boarding department, a deposit of \$10.00. (This reserves a place for one girl only, not an entire room.) The amount deposited will be held for credit on the student's expenses for the first quarter of the coming session. Room reservations are not transferable; but if any one who has engaged a place changes her mind and decides she does not want the room, and notice to this effect reaches us on or before September 5, 1910, the money will be refunded. We do not ask that any reason be given us for recalling money up to that time, as we will then have sufficient time to re-engage any room released; but **no refunds will be made on cancellations reaching us after that date.** No room engaged during the spring or summer will be held beyond the first day of the session, unless the pupil has notified us in advance that she will be here a few days after the opening, and even under these conditions, we do not purpose to hold any place vacant beyond the first Monday after the opening. All requests for refunds of deposits or for holding places must be addressed to the College or its proprietors, and not to individual members of the firm or faculty. We ask that all understand fully that this deposit is not in addition to the charges for the session, but that it is simply an advance payment on those charges. We have already received more deposits for the opening of next session than we have places. However, circumstances will develop in some homes during the summer that will cause the withdrawal of a number of girls who now have rooms engaged. Therefore, we will be pleased to file deposits for the vacancies thus made. Deposits will be numbered in the order in which they are received, and the vacancies will be given out in the same order. If any such applicant gets tired waiting for the promise of a vacancy, and wishes to withdraw her deposit, she may notify us, and the full amount will be refunded. Some who fail to get room at Blue Mountain may find places in Hillman College, our school at Clinton, Miss.

N. B.—Beginning early in every session, we have many inquiries about the earliest date that deposits will be received for the next session. Therefore, we announce here that our books will not open for engagements for the session of 1911-12 until Monday, May 1, 1911. Deposits in letters addressed to us and postmarked April 29th or 30th or May 1st will be received upon the same basis as deposits made in our office on the last named date, and we ask that none mail such letters earlier than the first date named. Money sent to pupils to be deposited when our books open may be mailed earlier if desired.

girls well than to have to cure them when they get sick, and one can hardly estimate the value of a lady physician's close watchcare over a growing girl. Besides, in case of sickness, there is great advantage in having a physician who can be had in a few minutes at almost any time.

5. We believe that it has been truly said that Prof. Booth Lowrey's lectures on Health and Development are worth more than a session's expenses here to any girl who will hear and heed them.

6. We have a Teachers' Training Department under some of the best teachers in the state. We make the training of teachers for Primary Work a specialty. Primary teachers are the demand of the day in the South, and a bright field of pleasant, profitable and useful work opens up to those who are thoroughly prepared.

7. Our Industrial Home Plan enables over a hundred girls to get the superior advantages of our school each session for about \$130 to \$135 for board, laundry, tuition and regular fees.

8. Without canvassing or newspaper advertising, our school draws patronage from about a dozen states, and occasionally has pupils from foreign lands. More than three fourths of our over five hundred pupils each session are boarders.

Most schools similar to ours pay salaries and traveling expenses of agents who go out in search of pupils; and yet are unable to fill their rooms. We send out no agents and, while we have so much room, we have to refuse many girls every session after all our places are taken. There is certainly some vital reason for this difference in conditions, and we think it is unquestionable proof that there is something unusual in the care and development given by our school. If you approve our ideas, our methods and our work, please sustain us and commend us to your friends.

Very truly,

LOWREY & BERRY, Proprietors.

BLUE MOUNTAIN COLLEGE
For Young Ladies.

MANY SCHOOLS CANVASS LARGELY WITHOUT OVERFLOWING. WITH
MORE ROOM. OURS OVERFLOWS LARGELY WITHOUT CANVASSING.
WHY?

Blue Mountain, Miss.,

Dear Sir:

There are a few points about Blue Mountain College that we want you to know:

1. The School is located on an elevation between two hills which are a mile apart and whose tops have been declared by United States surveyors to be the highest points in the state. The air and the drainage are excellent.

2. The College has seventy-acre grounds, giving pupils unusual opportunities for freedom and open air exercise. Upon these grounds we have large brick buildings and springs that flow every day over a hundred thousand gallons of clear, cold water. This water has been analyzed and declared by the chemist to be "very pure," "free from objectionable constituents," and, in consideration of slight mineral contents, "superior to distilled water." Just back of this seventy acres lies our own vegetable and dairy farm of three hundred acres, with its overflowing well of splendid mineral water and its fine herd of Jersey cattle. This farm furnishes fresh vegetables, milk and butter for our tables. All these make our school much like a large and elegant country home.

3. We have an excellent sewerage system, and our own water works, steam heat, steam laundry and electric light plant.

4. We employ a lady physician, who lives in the College and gives close

LOCATION.

Blue Mountain College is located in the town of Blue Mountain, Tippah County, Mississippi, on the N. O., M. & C. R. R. (formerly M. J. & K. C.), ninety-four miles from Memphis, Tenn., and thirteen miles north of New Albany, Miss. (See last page.)

The location is, we think, an ideal location for a girls' boarding school. The College is on the slope of a large hill known as Blue Mountain, and from the side of this hill burst forth springs of pure freestone water. The campus of twenty acres and the spring and mountain lot of fifty acres, turfed with grass and overgrown with forest trees and cedars, make the place attractive and give abundant opportunities for recreation in the pure and open air. Upon these grounds we have large brick buildings, furnished with hot and cold water, heated by steam and lighted by electricity from our own plant, and springs that flow **every day** over a **hundred thousand gallons** of clear, cold water. Just back of this seventy acres lies our own vegetable and dairy farm of three hundred acres, with its overflowing well of excellent mineral water and fine herd of Jersey cattle. This farm furnishes fresh vegetables, milk and butter for our tables. All these make our school much like a large and elegant country home. In fact, along with Hollins Institute, and some other famous institutions, we have demonstrated that a first-class school for young ladies can be built up in the country. Our town is small, being composed of about one hundred white families; but we have the advantages of railroad, telegraph, local and long distance telephones, bank, etc., and the College has its own electric lights, water works, sewerage, etc. The Faculty, the students and the families in the boarding departments constitute a large and happy family. Students thus come thoroughly under the influence of the Faculty, and have every opportunity to give themselves up to their work. By our summer tours, and by frequently having distinguished lecturers, musicians, etc., visit the school, we give the most important advantages of a city school and avoid many disadvantages. A number of large towns have proposed to offer us flattering inducements to move our school, but we expect to remain at Blue Mountain. One who knew our school a few years since would not know it now, for we have made improvements almost every year, and expect to continue to do so.

Healthfulness.

The water from our famous spring was analyzed by the Director-in-Chief of the Chemical and Bacteriological Laboratories of the Memphis Hospital Medical College and Chairman of Committee on Contagious Diseases, Memphis Board of Health. He declared it to be "**very pure, free from objectionable constituents,**" and "**superior to distilled water,**" inasmuch as it

contains enough chemicals to give it "electric conductivity." In speaking of the water from the overflowing well on our farm the same expert said: "I like the proportion of ingredients very much, especially the relatively high percentage of magnesium salts, which indicates its probable superiority over certain renowned kidney waters which depend for their antacid and diuretic effect upon carbonate of lime only." Those who expect a school of over five hundred pupils to pass through an entire session without any sickness, will be disappointed in Blue Mountain College, or in any other school on earth; but those are most pleased with Blue Mountain in point of health who realize most the importance of pure air, pure water and an abundance of room for free and easy recreation and exercise. Considering our large numbers and the fact that so many of our pupils come from malarial districts, the health record of the school is excellent, and we believe it will compare favorably with that of any other school in the land. Some schools that are much smaller than ours may have fewer cases of sickness, but we believe none have less sickness in proportion to the number of pupils.

In many boarding schools the buildings are compact, the grounds are small, and school life becomes prison life. Our rooms are large and well ventilated, broad halls and verandas abound, and our grounds are large and so well arranged that our students can have much freedom. This freedom and open-air exercise have much to do with their health. A large majority of our students go home in summer looking robust and healthy, instead of pale and sickly.

Contagious Diseases.

All schools are occasionally troubled with contagious diseases, and they are generally more sorely troubled by the exaggerated reports that go out at such time. Once when we had but three cases of the mildest form of scarlet fever, and nothing resembling either of the other diseases, it was reported in our own town that we had several more cases of scarlet fever than we had and one or more cases of diphtheria. In a town six miles away it was reported that we had twenty cases of scarlet fever; in another section of our county, that we had both scarlet fever and smallpox. Being retired, our school is not troubled with these diseases as might be expected if it were in a larger town. Yet, we have a house at a distance from other buildings, reserved especially for handling any cases of contagious diseases that may occur in our school. There the patients are comfortably cared for without danger to others. We have had scarlet fever three times and smallpox once without having a single case from first cases taken, and we have handled other diseases as successfully. Of course, we are not always this successful, but we believe our past

record justifies our patrons in feeling that we will be frank with them in such matters, and we know that they can trust us to answer inquiries with true statements of what seems to be the situation. Therefore, we ask that patrons will always confer with us before growing alarmed over any reports of sickness here.

Brief History.

After the close of the civil war, Gen. M. P. Lowrey conceived the plan of founding in North Mississippi a boarding school for girls. He was not at the time prepared to carry out his plan, but he kept his purpose for the future. In 1869 he bought the romantic country home known as the Brougher place, six miles southwest from Ripley. Here the school was opened in 1873, with Gen. M. P. Lowrey as president, Miss Modena Lowrey as lady principal and Miss Maggie Lowrey as assistant. Fifty students were enrolled the first session, twenty-seven of them being boarders. The patronage increased rapidly, and the curriculum was gradually extended.

In 1876 Miss Modena Lowrey, the lady principal, was married to Rev. W. E. Berry, A. M., who had graduated with first honors from Mississippi College and spent one year at the Southern Baptist Theological Seminary. With the opening of the fourth session he became one of the proprietors of the college and professor of Latin and Greek.

In 1877 the school was chartered as "Blue Mountain Female College." By a recent amendment to the charter the word "Female" was dropped from the name of the school, leaving the name simply "Blue Mountain College".

The extensive acquaintance and popularity of Gen. Lowrey, the healthfulness of the location, the home-like character and elevating moral influence of the school, and the thorough work of the Faculty, brought the institution rapidly into prominence, and in a few years she took her place among the leading schools of the State and of the South.

On the 27th of February, 1885, Gen. M. P. Lowrey dropped dead in the depot at Middleton, Tenn. He had been president of the College for eleven and one-half years and had laid a solid foundation for a permanent and prosperous institution. Eighty-two boarders and a good local patronage had been enrolled that session.

His eldest son, Rev. W. T. Lowrey, A. M., then in Kentucky, was chosen to fill the vacant position and entered immediately upon his work. He had graduated with first honors at Mississippi College in 1881, and was finishing up his fourth year at the Southern Baptist Theological Seminary, Louisville, Ky. The school moved on with increased prosperity. In the summer of 1898 he accepted the call of his denomination to the presidency of Mississippi College, the great Baptist male college at

Clinton; but he is still one of the proprietors of Blue Mountain College and is President of our Board of Counsel. He is also President of Hillman College, our school for girls at Clinton, (see page 55.)

In 1889 Mr. B. G. Lowrey became associated with the former owners as one of the proprietors and managers. He took the Chair of English Language and Literature, for which he had made special and thorough preparation in Mississippi College and Tulane University. He also became Superintendent, having under his charge the general supervision of classes and classroom work. He became president of this school when his brother, W. T. Lowrey, was called to the presidency of Mississippi College in 1898.*

In January, 1893, Mr. T. C. Lowrey took his present position as secretary and soon became one of the proprietors.

We enroll more than five hundred pupils per session, and about four hundred of these are boarders. Yet, we generally turn away a number of girls after our boarding departments are filled. For some years we have been offered many more pupils than we could accommodate—some years more than twice as many. Very few schools in the South have more boarding pupils than ours, and possibly no other strictly private school for girls has so many applicants for admittance. There are generally representatives from eight to ten or twelve different States, and from a large majority of the counties in Mississippi.

A Family School.

The school has a special advantage in being a family institution and in having so many members of the family on its working force. This enables us to make a happy division of the labor, secures harmony in its management and brings together a much stronger Faculty than the school could otherwise afford

*On account of the tuberculosis tendencies of one of his little sons, President Lowrey has located his family in Texas for two or more years, and for this reason is planning some educational work in that State. We regret that news of these plans has caused some to think that he was severing his connection with Blue Mountain College. This is not the case. He retains his financial interest here, remains active president of this school and plans to be here about the same proportion of his time that he has spent here for the last two years. For these two years he has been on the field raising money for the new Baptist Hospital of Memphis, and has been away about half to two-thirds of his time. While he plans now to give something like that much of his time to work that will enable him to be with his family in their forced residence elsewhere, he plans to be at Blue Mountain as much of the time as formerly, and to continue in the direction of affairs here very much as in the past. While we who have remained at the helm here have looked forward eagerly for his return to full time with us, we believe that God is guiding, and that "all things" are working together for good; and we feel that our friends and patrons may trust us just as fully in the management of affairs here under present conditions as under the conditions that have existed for two years past.

to employ. Besides, several of our employed teachers have been with us for a number of years, and seem to take the same interest in the efficiency and prosperity of the school as if it belonged to them. We hope to hold these for many years to come, and thus still to be able to say that very few schools for girls have a Faculty that is so strong and so permanent as ours.

Religious Character.

The proprietors are Baptists, though the school is a private enterprise and not under the official direction of any denomination. The Baptist Church lot joins the campus, and the church door can be reached by a short walk from the College or from any building occupied by boarding pupils. The Methodist Church is only about 300 yards from the College, and pupils and teachers of that denomination attend preaching and Sunday school there regularly. Pupils of other denominations can generally attend Sunday school classes with both teachers and literature of their own faith.

The school is opened every morning with Scripture reading, singing and prayer, and earnest efforts are made to inculcate moral and religious sentiments of the highest type. Respectful attention and good behavior are required at all public services. We are all thorough believers in Christianity and in Christian education, and we think it our highest duty to exert a Christian influence over our students. The high moral and spiritual tone of the school has been the subject of much favorable comment.

Discipline.

We seek to make our discipline mild but strict. While we have rules, yet we depend mostly on personal influence for maintaining order, appealing to a girl's honor and sense of right rather than to her sense of fear. The amount of trouble we have had in our discipline has been remarkably small. There generally exists a hearty feeling of friendship between the teachers and students, and we find that very little discipline is needed. Of course, as in all large schools, there are occasional flagrant violations of rules and of propriety that demand prompt and public dismissal of pupils. However, such cases with us are very rare; for, though a girl has not been guilty of any serious offense, if we decide that she is not going to be willing to do right, we simply write her father or mother a private letter and request her withdrawal. Thus the girl who tends to develop into a troublesome pupil is generally either won to another course or privately withdrawn before being guilty of offenses that demand more drastic measures.

Reports.

A few weeks after the close of each quarter, reports are made to parents or guardians on printed blanks, showing character

of the students' examinations, average scholarship and deportment, with demerits entered for serious violation of the regulations of the College. A student is not passed on a study unless her daily grade and examination together average as high as 75.

Lyceum Course.

Few things are more inspiring to young people than seeing and hearing great men. Recognizing this fact, we run one of the strongest Lyceum courses in the State, and bring a number of distinguished lecturers, musicians, etc., to the College every session.

Many students go to city schools on account of these advantages. A student can come here at a little more than half the cost of equal advantages in a city school, and we can have almost any man in the nation to lecture here at a cost of fifty cents to each student. The students will remember these men and their lectures through all the coming years with pleasure and profit. However, the attendance upon these lectures is entirely voluntary. The charge for a single lecture or entertainment is fifty cents, but a ticket admitting to the full course of ten or more numbers is only \$2.50.

We will allow no lecture or entertainment given in connection with the school, except where we have assurance that it will be profitable to our students.

Literary Societies.

We have three Literary Societies, the "Eunomian," the "Euzelian" and the "Modenian." These societies are entirely under the management of the students, and connection with them is voluntary. Secret societies are not allowed.

Summer Educational Sight-Seeing Tours.

It is an established custom of the school for one of the proprietors, during each summer vacation, to accompany such of the pupils as may wish to go on a tour to some of the principal points of interest. In the past we have carried parties to Mammoth Cave, Niagara Falls, Toronto, the mountains of North Carolina, Washington, Lookout Mountain, Colorado, the Pacific Coast, New York City and several other points of interest in the United States and Europe. In the summer of 1904 we kept a house open in St. Louis, thus arranging a safe and pleasant home for scores of our pupils who attended the World's Fair, and in 1907 we carried a party to the Jamestown Exposition, Washington City and other points of interest in that section. Miss Jennie C. Jarman, of our faculty, is to conduct a party on a European tour this summer.

We arrange for needed comforts at low rates, and those who go

on these tours always have a delightful and profitable trip. Pupils who are financially able to do so, ought to take advantage of them. These are not public excursions, but tours arranged by us especially for our school, and are open only to our teachers, our pupils, our patrons and invited friends.

Library.

We have taken special pains to make our Library helpful. We have a large, neat room adjoining the study hall, used entirely for library and reading room. The books are well selected, and the collection is being increased from year to year. An intelligent librarian has charge and assists students in their library work.

The library may be made of very great value to students both in the work of their regular studies and in increasing their general intelligence.

Equipment.

We really think that buildings and material equipment are the smallest feature of any school; but we find hundreds of people who select a school almost entirely by the fine buildings, etc., pictured in the catalogue. The real value of a school, like that of a woman, is measured almost entirely by the spirit that rules within. We do not, however, underestimate the value of nice buildings and grounds any more than we underestimate the value of a woman's personal appearance, and we have buildings and equipment equal to those of any other school for girls in Mississippi, except the I. I. & C., and equal to those of most of the female schools in other States to which Mississippi people send. Yet, these are not Blue Mountain College; they are simply her dwelling place.

BOARDING DEPARTMENTS.*

Department Upon Regular Plan.

We think it especially desirable that a boarding house should be home-like. At great expense we have in recent years made our boarding departments much more comfortable and at-

*It is our present plan not to permit any of our pupils to board out in the town next session, except where they board with their near relatives upon our approval. We do not plan, under any circumstances, to permit a pupil to board in that part of the town across the railroad from the college, the side of the town in which the boys' school is located. It is probable that we will not waive any part of this rule during the last quarter, as we have done to accommodate young lady teachers in some former sessions. However, there are nearly always a good many withdrawals during the spring months, and we shall be pleased to hear from any young ladies who wish to spend all or a part of the last quarter in our Teachers' Training Department; but we ask that none plan to board out in town at that time without first consulting us. (See page 28.)

tractive than ever before. The department that furnishes young ladies board upon the regular plan consists of three large buildings that have hot and cold water on every floor and are heated by steam and lighted by electricity. The families of two of the resident proprietors and of their brother, Prof. Booth Lowrey, and their sister, Mrs. Linnie Lowrey Ray, will live in these buildings. The girls in each building will be encouraged to consider themselves, for the time, members of that family. The price of board in these departments is forty-one dollars per quarter, including laundering within the restrictions given below. (For cheaper board see item on Industrial Homes. Also see pages 17-19.)

When temperature requires, our beds are furnished with a pair of blankets, two quilts and a counterpane. This, we think, is abundance of cover for our climate and steam heat, but if the students wish more than this, they are expected to furnish it. Pupils who board in this department must furnish also their own sheets, pillow cases, towels, table napkins and toilet articles, such as soap, combs, etc.

Industrial Home Department.

There are many girls and young women who are anxious for a college education, and who find it necessary to economize. For meeting the wants of this worthy class, we established our Industrial Homes. These have been in successful operation for many years, and many of our best and most loved girls board in them.

These Industrial Homes are not, as some have supposed, for the purpose of teaching girls how to cook, keep house, etc., but they are purely co-operative clubs, for the purpose of reducing the cost of comfortable school life to the minimum. The work of these girls is simply the cooking and housekeeping for themselves. They do all this work, no servants being hired for anything, and they pay only actual cost for board. This cheap plan of board offers a girl the superior advantages of our school at a cost of about one hundred and thirty to one hundred and thirty-five dollars for board, laundry, literary tuition and regular fees for a session of thirty-eight weeks. However, only the four items named are included in this estimate. Neither books and stationery nor tuition in music, art or other extras is included.

Those who are interested, will please write us for special circular about the Industrial Homes.

Department for Children.

Every year we have letters about small children who have no mothers, have invalid mothers or for other reasons need to be placed where they can get both schooling and motherly care. We find that other schools have regularly the same kind of let-

ters; but there does not seem to be a school in evangelical hands in the South that is prepared to meet such cases. The result is that scores of children of evangelical parentage go annually into hands of the Catholic Sisters, and have their lives shaped under Catholic influences. Evangelical churches have provided, greatly to their credit, orphanages for the poor children; but they have not provided schools for children of means.

As others failed to take up this work, we decided to do so, and have established, as an annex to our institution, a children's school of very high grade. We provide board for a few children, and in both the school and the boarding department they are under the care of experts selected for this special line of work. This enables children from a distance who have estates and have no homes, or who have no educational advantages at home, to come to us with assurance of both excellent school advantages and motherly care. The charges for a child are the same as for a young lady.

We request our friends to send us the names of those in charge of children needing these advantages, or to refer them to us. This kindness to us will be greatly appreciated and we think that in many cases the greater service will be to the children and to the world.

Laundering.

Our own steam laundry will be prepared to do the ordinary laundering for girls in both the Boarding Departments, and will charge each pupil who has laundering done \$4 per quarter for the same. This price, however, is for only nine weeks of any quarter. The girls come in too late to put out laundry for the first week of the session, and leave too early for it to be finished up and delivered back to them the last week. Experience has shown us that it is not best for the girls or for the school for any to put their laundry out with women who do this kind of work; so all the girls in all Boarding Departments must put their clothes in this laundry, unless it be some who live near enough to have their laundry done at their own homes. However, we have no machinery for putting the "laundry finish" on collars and cuffs, and those desiring this will have to send these articles to other laundries. Only eight large and sixteen small pieces per week will be laundered without extra charge during the second and third quarters; in the spring and summer, nine large and twelve small pieces, but only one dress a week at any time and only a limited number of other large pieces. Underskirts with tucks or ruffles will not be ironed without extra charge. Parents and guardians should look to this in preparing clothing.

Lady Physician.

Few things bring more suffering into the world than the neglect of the health of growing girls. Certainly the health

of any girl or young lady who is away from her mother is made much safer by an occasional consultation with a good physician.

We employ a lady physician, who lives in the College and gives close attention to the health of our pupils. Our theory is that it is better to keep girls well than to have to cure them after they get sick, and one can hardly estimate the value of a lady physician's close watch-care over a growing girl. Besides, in cases of sickness, there is great advantage in having a physician who can be had in a few minutes at almost any time.

Serious sickness often comes from failure to take the right medicine at just the right time. We have had spells of sickness in our school for lack of this, and the lack came from the fact that the girls did not make their complaints known because they did not wish to incur the little expense of getting the medicine. We wish to avoid such in the future. Therefore, we adopt the following plan: Each pupil boarding on either the regular or the industrial plan will be charged one dollar per quarter for Office Consultation and Medicine Fee. This will entitle her to consultations in the office with our College Physician or Trained Nurse at any time regarding her health, and to medicines prescribed by them in such consultations. However, we do not agree to fill prescriptions made by other physicians or to furnish mineral waters or face and hand lotions, corn removers, hair vigors and other things of this kind. Girls wishing these must either pay cash for them or give us sufficient evidence that their parents wish us to furnish the money and charge it as cash.

If the doctor calls to see a sick girl in her room or in the hospital, additional charges will be made.

Art.

The Art Course embraces work from objects, life, copy, dictation and memory: Water-colors, Crayoning, Oil, Pastel and China Painting. This department is growing in popularity, and it ought to be more and more largely patronized. We plan to fit up new and modern quarters for it during the coming summer, and to otherwise add to its material equipment.

Dressmaking.

We have made what we think quite a step forward in this line. Certainly every woman ought to know how to cut and fit perfectly, whether she expects to do such work or not. Besides, there are very few towns in Mississippi that have real first-class dressmakers. The demand for dressmakers of **real taste and skill** is great, and the work is profitable and not laborious to one who is **really proficient**. Therefore, we determined to put this department on a high basis. We have fitted up apartments for it and furnished them with new sewing machines and other necessities. This department will again be under the direc-

tion of Miss Ida Johnson. Lessons will be given in cutting, fitting, sewing and everything else that is essential to practical dressmaking, and pupils will be carried through actual experience in the work. We confidently believe that no school in the South offers better advantages in this line than Blue Mountain College will give.

Expression and Physical Culture.

This important department is under the direction of Prof. Booth Lowrey, whose work is too well known to need commendation. In addition to his class-room work, he will give free to the school a valuable course of lectures on Expression, Physical Culture and Body-building. It is also worth noting that within the last few years several of the leading colleges have paid him liberally for his course of five lectures in this line. He will be ably assisted by Miss Elizabeth Purser, who is a graduate of our Expression Department, has taken a special course in this work in Emerson College, Boston; was a successful teacher with us for several years, and has spent the past season in Europe.

Graduation in Expression.—Students who complete the three years' course in Expression, as arranged by Prof. Lowrey, and who have done the work in the Literary course required for graduates in Music, will receive diplomas or medals as graduates in Expression, provided their progress and development is satisfactory to the Faculty. (See article on Music.)

Teachers' Training Department.

This department makes a specialty of preparing teachers for the free school examinations and work. Anyone who wishes to prepare for this work can drop in at any time during the session and find excellent advantages. This department will again be under the direction of Prof. A. H. Ellett, whose work is too well known to need commendation or special comment. We here call attention to our new and special course of training for primary teaching, under the direction of Mrs. Jennie M. Hardy, whom we consider the equal of any primary teacher in the State. Primary teachers are the **demand of the day** in the South, and a bright field of pleasant, profitable and useful work opens up to those who are thoroughly prepared.

Music.

The patronage of this department is very large, and the advantages offered are first-class. For several years past the department has been growing rapidly in popularity and efficiency. Our Piano class will be divided into grades, the grading being done according to the advancement of the pupils, of course. Prices will be according to grade, and will range, including one

hour per day practice, from \$13.50 to \$17.50 per quarter. If students wish to enter a conservatory, we have teachers thoroughly trained at the conservatories, who can fit them for the higher grades. If they do not wish to study elsewhere, we can carry them on through a conservatory course and fit them for excellent practical work as teachers and artists. We are prepared to give extensive courses in Voice, Piano, Theory, Harmony. We are pleased to announce that our Miss Gertrude Lowry, who has spent the past winter in Europe, is to direct this department again.

We feel that we are making quite a step forward in securing Miss Thomasella Stell, of Virginia, to take charge of our Vocal class. Miss Stell has spent nine years in study abroad, and has had several years successful experience in teaching. The price will be \$17.50 per quarter, including one hour per day practice. We do not think equal advantages will be found anywhere for less money.

No student will be graduated in Music unless she has completed Mathematics through the Freshman year, all studies required for public school examination in Mississippi (except that girls from other States will not be required to study Mississippi History), Psychology, Ethics, Logic, Ancient and Modern History and a full course in English Language and Literature. Students who expect to graduate in Music must give public recitals satisfactory to the Music Faculty during their Junior and Senior years. Graduation in Music does not at all mean that our teachers are not prepared to carry the student further. They are prepared to give several years of profitable post-graduate work. One never reaches the end in Music, and the diploma does not mean that the girl has reached the end of even what we can do for her in this line.

Dress.

When attending church or any other public gathering, our students are required to dress in uniform. The restrictions are as follows: For headwear, navy blue Oxford caps. For first and fourth quarters, inexpensive white cotton or linen waists, with white or navy blue belts and navy blue woolen or cotton skirts, trimmed in the same; no trimming of ribbons, velvets or silk; for the second and third quarters, the skirts described above, with navy blue cotton or wool waists, navy blue belts and navy blue wraps or jackets. For the second and third quarters, neckwear will be white, but for the first and last quarters this will be blue. Hair ribbons for all seasons must be blue. All uniforms must be of same shade of blue, but no special grade of goods or style of making is required. Samples showing shade required will be sent on application. Our pupils wear blue goods costing all the way from twenty-five cents to a dollar a yard. Dresses can be bought and made at the pupil's home or in our Dressmaking Department here, as parents may

desire. We will be prepared to furnish neat skirt, jacket and cap for uniform for \$15. Other grades can be furnished upon special orders. In our uniforms, girls can look neat and stylish, and yet be at but little expense for dress. We ask that parents will always send in advance any money they wish spent for clothing. We do not permit girls to make accounts at stores, and we must not be asked to advance money for their clothing. Inexpensive white dresses may be allowed on concert and commencement occasions. For every-day wear, students may wear whatever they have on hand. (See article on Dressmaking.)

Special Advantages.

1. We have unusual advantages of location. The water, the air, the drainage are excellent. The College being retired, we almost invariably escape contagious diseases, the temptations to extravagance are few, and there is but little to divert the minds of the students from their studies. (See article on Location, pp. 18-19.)

2. Our lady principal has had over thirty years' experience with boarding school girls. She looks closely after the health of pupils, and in case of sickness either we or our physician will write parents the exact truth as far as we can ascertain it.

3. We employ a lady physician, who lives in the College and gives close attention to the health of our pupils. (See p. 26.)

4. We believe that it has been truly said that Prof. Booth Lowrey's lectures on Health and Development are worth more than a session's expenses here to any girl who will hear and heed them. Our pupils get these lectures free each session. (See article on Expression and last two sections of article on Location.)

5. The school, we think, deserves its reputation of being home-like. Said a visitor of large travel and experience: "You certainly have the most **home-like** school I ever saw."

6. The course of study and the teaching are, we think, much more solid and thorough than are usually found in schools of this kind. The fact that our school is so large gives us great advantages in securing and maintaining a strong Faculty. (See Course of Study and articles on Music, Expression, A Family School, etc.)

7. We make a specialty of **English Language and Literature**.

8. We have a very strong training department for teachers in the public schools.

9. Considering the advantages offered, the school is **unusually cheap**. Our object is to give the best advantages for the least expense; to put the school in the reach of the poor, and make it worthy of the patronage of the rich.

10. Very few schools for girls have so strong or so permanent a Faculty as we have.

COURSE OF STUDY

Preparatory and Sub-Freshman.

The work in the Preparatory and Sub-Freshman Departments will be irregular. They are intended to prepare students for the College classes, and the work will be decided according to the needs of the pupil. In order to enter our Freshman class, the student should be a good reader and speller, and should have taken thoroughly all the studies in the Mississippi Public School Course, and must show especial thoroughness in composition and rudimentary English generally.

The regular public school branches are as follows: Written Arithmetic, Mental Arithmetic, English Grammar and Composition, Geography, United States History, Civil Government, History of Mississippi, Physiology, Business Methods, Elements of Agriculture, Reading and Spelling.

Any student who has not finished all the above with sufficient thoroughness to stand such an examination on them as would give her a first-grade public school teacher's certificate, will be required to study them before graduating in any course.

For those who take all preparatory work with us, the course will be as follows:

FIRST YEAR.

Arithmetic.—Milne's Standard to page 91. Written exercises each week. Recitation one-half hour daily.

Literature.—Historical Stories, Life of Lafayette, Life of Thos. J. Jackson, Selections from Stories from Longfellow, Selections from Carpenter's Europe. Some poems from Longfellow and other American poets, copied and memorized. Written exercises each week. One-half hour recitation daily.

Geography.—Tarr and McMurry's Complete to page 211. Map drawing or written exercises each week. One-half hour recitation daily.

Botany and Physiology.—Gray's How Plants Grow is studied during the first and last quarters. In the fall special attention is given to leaves, fruits and seeds. In the spring the first quarter's work is reviewed and the flower is especially studied. During the second and third quarters, Davison's Human Body and Health is used. Throughout the course as much work as possible is done from observation and experiment. Frequent written exercises are given. One-half hour recitation daily.

Grammar.—Reed and Kellogg's Graded Lessons in English. Parsing throughout. Frequent written exercises. One-half hour recitation daily.

Manual Training.—(Optional). Writing. Spelling.

SECOND YEAR.

Arithmetic.—Milne's Standard from page 91 to page 170. Additional examples. Written exercises weekly. One hour recitation daily.

Literature.—King Arthur and His Court, Abbott's History of Marie Antoinette, Poems Every Child Should Know, Selections from Lives and Stories Worth Remembering, Jason's Quest. Some of Tennyson's poems copied and memorized, written exercises each week. One-half hour recitation daily.

Geography.—Tarr and McMurry's Complete from page 211 to end of book. Frequent written exercises. One-half hour recitation daily.

United States History.—White's Advanced History through the Revolution. Written exercises weekly. One-half hour recitation daily.

Grammar.—Emerson and Bender's Modern English—Book Two. Constructions and modifications of parts of speech. Parsing continued. Frequent written exercises. One-half hour recitation daily.

Writing. Spelling.

THIRD YEAR.

Arithmetic.—Milne's Standard. Review of second year's work and from page 170 to page 231. Additional examples. Frequent written exercises. One hour recitation daily.

Literature.—Ruskin's King of the Golden River. Selections from Lamb's Tales from Shakespeare, Selections from Dickens' Christmas Stories, Abbott's History of Josephine, Abbott's History of Elizabeth, Frequent written exercises. One-half hour recitation daily.

United States History.—White's Advanced. Review of second year's work from the Revolution to the present time. Frequent written exercises. One-half hour recitation daily.

Grammar.—Baskerville & Sewell's English Grammar. Parsing continued and diagramming. Frequent written exercises. One-half hour recitation daily.

Rhetoric.—Lockwood and Emerson's Composition and Rhetoric, three quarters. Mythology, one quarter.

Throughout the Arithmetic course especial attention is given to correct form and analysis of examples.

In the Literature course an effort is made to develop the reading habit and to instill principles of neatness and accuracy. Much composition work is connected with the reading; sentences, paragraphs, outlines, reproductions, debates, letter writing, etc.

THE FOUR COLLEGE YEARS

School of English.

Freshman.—Brooks and Hubbard's Composition and Rhetoric. Montgomery's History of England.

Sophomore.—Chief American Poets (Curtis Hidden Page). Introduction to American Literature (Brander Matthews). Southern Poets (Weber). Selections from Tennyson, Burns and Goldsmith, original themes.

Junior.—First Book in Old English (Cooke). Review of English Grammar and Evolution of Language (Two terms). British Poets of the Nineteenth Century (Curtis Hidden Page). Original Themes (Two terms).

Senior.—Selections from Chaucer, Milton, Shakespeare, Spenser, etc.; also from the best English Essayists. Hallick's History of English Literature. Original themes.

Course of Reading.—In connection with each year's work as given in the above course, will be a select course of reading. The four years course will be arranged by the principal from year to year, in connection with the regular work of the class. The following will show the character of books required: "Sketch Book" (Washington Irving); "Twice Told Tales" (Hawthorne); "Evangeline" and "Songs of Hiawatha" (Longfellow); "Enoch Arden" and "Locksley Hall" (Tennyson); "Pickwick Papers" and "David Copperfield" (Dickens); "Ivanhoe" and "Kenilworth" (Scott); "Last Days of Pompeii" and "Harold" (Bulwer); "The Last of the Mohicans" (Cooper); "Romeo and Juliet," "Merchant of Venice," "Macbeth," "King Lear" and "Hamlet" (Shakespeare); The English Bible (King James' Version), etc.

School of Mathematics.

We do not go into Higher Mathematics, but we do unusually thorough work as far as we go.

Freshman.—Wentworth's Practical Arithmetic or Colaw & El-woods Advanced Arithmetic.
High School Algebra (Elementary Course, Slaught & Lennes).

Sophomore.—Geometry (Slaught & Lennes).

Junior.—Algebra (Slaught & Lennes).

Senior.—Trigonometry (Phillips & Strong).
Thorough review of Higher Arithmetic.

School of History.

Freshman.—Montgomery's History of England.

Sophomore.—Myers' Ancient History, Myers' Modern History.
(United States History to be reviewed some time during the course unless student has already taken it thoroughly).

School of Science.

Junior.—Physics, Chemistry (Williams), Botany (Bailey).

Senior.—Astronomy (Young), Geology (Dana).

Senior.—Psychology (Davis), Ethics (Davis), Logic.

School of Latin.

Freshman.—First year Latin (Bennett).

Sophomore.—Second year Latin, Greenough, D'ooge and Daniel; Caesar.
Barss' Prose Composition (Book One).
Bennett's Latin Grammar.
Bennett's Latin Writer.

Junior.—Cicero's Orations, Virgil's Aeneid, Bennett's Latin Grammar, Bennett's Latin Prose Composition.

Senior.—Livy, Horace, Tacitus, Nutting's Prose Composition.

School of French.

First Year.—Aldridge & Foster's Foundations of French.
Edgren's French Grammar, Part I.
Guerber, Contes et Legendes.
Jules Verne, L'Expedition de la Jeune-Hardie.
Sandeau, Mlle. de la Seigliere.
Halevy, L'Abbe Constantine.
Written Exercises.

Second Year.—Corneille, Le Cid and Horace.
Moliere, Le Misanthrope.
Racine, Iphigenie.
Victor Hugo, Quatrevingt-Treize.
Saintsbury's History of French Literature.
Prose Composition.

School of German**First Year**—Collar's First Year German.

Gerstacker, Germelshausen.

Heyse L'Arrabbiata

Committing Short Poems to Memory.

Written exercises.

Second Year.—Thomas' Grammar, Part Two.

Schiller, Jungfrau von Orleans.

Deutsche Gedichte (von Klenze).

Conant's Primer of German Literature.

Heine, Selections from Reisebilder.

Goethe, Gotz von Berlichingen.

Committing Short Poems to Memory.

School of Spanish.**First Year**—Spanish Method by Sauer-Arteaga.

Metodo Berlitz, Foundation for Spanish Conversation.

Fontaine, Flores de Espana; Short Stories by Trueba,

Valera, Sierre and Bazan.

Larra, Partir a Tiempo.

Eserich, Fortuna.

Second Year—Umphrey's Spanish Prose Composition.

Conant's Primer of Spanish Literature.

Alarcon, El Capitan Veneno.

Breton, Quien es Ella?

Calderon, La Vida es Sueno.

Valera, El Pajaro Verde.

Galdos, Dona Perfecta.

Moratin, El Si de las Ninas.

Schools Combined for Regular Course.**Freshman**—English, Rhetoric (half session). History of England (half session).

Written Arithmetic. (full session).

Algebra (full session).

Latin (full session).

Sophomore—English (full session).

Geometry (full session).

Ancient History (half session); Modern History (half session).

Latin (full session).

Junior—English (full session).

Algebra (full session).

Latin (full session).

Physics, Chemistry, Botany (full session for the three).

Senior—English (full session).

Review of Arithmetic, Geology, Trigonometry (full session for the three).

Astronomy and Latin (full session for the two).

Psychology, Ethics, Logic (full session for the three).

The course is sufficient work for a good student, without music or other extras. If a student takes the regular course, and music, expression or art, she will need more than four years to complete the course after reaching the Freshman class.

Degrees

The degree of M. E. L. is conferred upon a student who completes the regular course as given above.

A pupil who takes the M. E. L. course as outlined and four years of modern languages will receive the degree of A. B.

For graduation in Music and Expression, see articles on those subjects on previous pages. We do not confer degrees upon pupils who have not been in our school more than one session.

We have plans for lengthening our course; but until after the session of 1911-12, we will confer the degrees named above for the work outlined.

Substitutions

In the place of Higher Algebra, Trigonometry, review of Arithmetic, Geology and the last two years of Latin, candidate for degree of M. E. L. may, if she desires, take four years of modern language. Or she may take two years of modern language in the place of any two years mentioned in the first three lines of this paragraph.

EXPENSES**For Session of Thirty-Eight Weeks.**

(Payments are due quarterly in advance. To get the amount per quarter, divide by four.)

Board (in department on regular plan, see p. 24).....	\$148.00
Laundrying (with restrictions on p. 26).....	16.00
Tuition, Regular School Courses, as catalogued, Teacher's Training Department, or the two combined.....	54.00
Library Fee (paid by each pupil and devoted to the College Library).....	2.00
Physician's office consultation and medical fee, paid by each pupil who boards in either of our boarding departments or out in town (see footnote, page 24)....	4.00
Music—Piano, Organ, First Grade.....	44.00
Music—Piano, Organ, Second Grade.....	50.00
Music—Piano, Organ, Third Grade.....	60.00
Music—Voice	60.00
Use of Piano or Organ and room, for lessons and practice one hour each day.....	10.00
Expression and Physical Culture.....	54.00
Dressmaking, Cutting, Fitting, etc.....	50.00
Drawing, Crayoning, Oil, Pastel or China Painting (one hour daily).....	50.00
Diplomas to Graduates.....	5.00

COMBINATIONS.*

Board & Tuition & Library & Medical Fees.....	\$224.00
Board & Tuition & Library & Medical Fees, Piano.....	\$278.00 to 294.00
Board & Tuition & Library & Medical Fees, Voice.....	294.00
Board & Tuition & Library & Medical Fees, Piano, Voice. 330.20 to	344.60
Board & Tuition & Library & Medical Fees, Expression.	278.00
Board & Tuition & Library & Medical Fees, Piano, Voice, Expression	324.80 to 339.20
Board & Tuition & Library & Medical Fees, Art or Dressmaking	274.00
Board & Tuition & Library & Medical Fees, Art or Dressmaking, and Piano or Voice.....	321.20 to 335.60
Board & Tuition & Library & Medical Fees, Art or Dressmaking, and Voice	326.60
Board & Tuition & Library & Medical Fees, Art or Dressmaking, Expression	312.20

*These prices are for board upon the regular plan, including laundrying as per specifications given on page 26. (For cheaper board, see article on Industrial Homes, page 25.) They include literary tuition in regularly organized classes only. Extra charge will be made if a class is organized for a student's special benefit. Prices under the heading "Combinations," include with each item of Music, one hour per day practice. Extra time in Music, Art, Expression or Dressmaking will be charged at the same rate as regular time.

As to Expense.

The fact that a session with us costs one girl a little over \$125 and another more than \$300 has led some to think that we "cut prices." This is not the case. The difference comes from the fact that one boards at an Industrial Home and takes literary work only, while the other takes the best accommodations of a regular boarding-house and studies music, etc. We have placed our prices as low as the superior advantages we offer will allow when all pay the same; and, excepting in cases of charity and uniform discounts to daughters of ministers of the gospel, regularly in charge of churches or otherwise dependent upon the ministry for a living, we never depart from them. The great overflow of our school from year to year is certainly proof that we are not asking more for what we have to offer than it is worth.

In comparing our prices with the prices of other schools, please remember that schooling is like articles of merchandise—that which costs the least money is not always the best bargain. Most schools similar to ours pay salaries and expenses of agents who go out in search of pupils, and yet run with vacant rooms. We send out no agents and, while we have so much room, we are offered about twice as many pupils as we can accommodate. There is certainly some vital reason for this difference, and we think it is that there is something unusual in the care and development given by our school.

Special Provisions as to Prices.

When two sisters are in our school at the same time, the board of each will be reduced \$1.25 per quarter, and a discount of 10 per cent. will be made on all tuitions. When there is but one student from a family, a discount of 10 per cent will be made on all tuitions, provided that in addition to regular college work she takes regular time also in two of the following: Piano, Voice, Art, Expression, Dressmaking. We will not make both these discounts in any case; but when two sisters are here together, and both of them meet the last-named conditions, we will make a discount of 12½ per cent. on all tuitions. When three sisters are here together, we will make a discount of \$1.50 per quarter on the board of each, and 12½ per cent. on all tuitions. Since board at our Industrial Home is at cost, of course, no discount is given on board there. Taking less than full time in any department will not entitle a pupil or her sister to discount that would not be given if she were not in that department.

Regulations About Payments, Etc.

Our session is divided into four quarters, each quarter containing nine weeks of vigorous, active class work. There are also the opening and closing weeks, giving the first and last quarters

an extra week each. However, the first week is necessarily given largely to organizing and the last week to closing exercises. We think we speak advisedly when we say that there are no weeks in the session that are more important to pupils than the opening and closing weeks, and we urge that, where it is possible, a pupil should enter on the first day of the session and remain through the last day. Since we are at less expense for fuel, lights, janitor service, etc., during the first and last quarters of the session than during the two middle quarters, we charge the same for each quarter, adding nothing for the opening and closing weeks. However, where a pupil is withdrawn during the first quarter, the first week of the session will be charged for as a full week, and at the rate stated below. No matter how soon a pupil may be withdrawn after entering either branch of our Boarding Department, the total charge for board and tuition will not be less than \$10.

Payments for board upon the regular plan, and for all fees and tuitions are due quarterly in advance. Accounts for same are rendered at the opening of each quarter. When payment is delayed beyond the close of the quarter, interest will be charged at the rate of 10 per cent. per annum from the beginning of the quarter. Where payment is made for an entire quarter as much as a month previous to the beginning of that quarter, discount will be allowed at the same rate from date of payment to the opening of the quarter. However, this discount applies only to money taken up in tuition and in board upon the regular plan, and not to money used for Industrial Home expenses, personal needs of pupils, or refunded on account of lost time. Money for meeting accounts for fuel, provisions, etc., at the Industrial Homes is deposited with us quarterly in advance; but these accounts are with those from whom the supplies are bought and not with us; hence, do not go on our books, and are not rendered by us. However, at the close of each quarter we will inclose with our account for the coming quarter a slip showing the amount of the pupil's expenses at the Industrial Home for the past quarter, and the account will show the amount of the deposit needed for the coming quarter. Terms of payment for girls who board upon the industrial plan are given fully in a special circular that we issue on that plan, which may be had for the asking.

Students may be withdrawn at any time for satisfactory reasons, and, except as stated herein, will be charged only from the beginning of the week in which they enter to the end of the week in which they are withdrawn; but, as there are just nine weeks of active school work in each quarter, when a pupil is here for only a fraction of any quarter, she will be charged one-ninth of the regular expenses of the quarter for each week or fraction of week that she is here or is having a place in the boarding department held for her. If, however, a pupil is withdrawn after a quarter begins, without consulting the proprietors and showing

satisfactory reasons, no credit will be due for the remainder of that quarter. No deduction will be due for time lost from any department during the first or the last week of any quarter or the first two or last two weeks of any session, except that in our Teachers' Training Department (where the session's work closes with the ninth week of the last quarter) a pupil may enter for the last few weeks of the session, and will be charged only one-ninth of the expenses of the quarter for each week or fraction of a week that she is here or is having a place held for her, viz, when such pupils leave at the close of the session's work in their department, they will not be charged for the closing week of the session. Time lost within a quarter commenced and prior to final withdrawal, will be credited only in cases of protracted sickness, and then for no amount of time less than two weeks, and for no time while the pupil is occupying a place in either boarding department. Much of the time many girls are anxiously awaiting vacancies with us, and are ready to enter school upon short notice, and to begin payments. Therefore, we cannot hold places for absent pupils, except at the expense of those for whom they are held; hence, if a place is held for a pupil in either boarding department during an absence, she is charged full board and tuition in all departments of her work as long as the vacancy is held. The same rule applies when a place is held for a prospective pupil before she enters school; or by a girl who is sick in a boarding department. The care and responsibility of *one* sick girl is more than the care, responsibility and teaching of *two* well girls; hence there is a double reason for not making credits when girls are sick in boarding departments.

If a pupil who remains in school drops Music, Expression, Art, Dressmaking or extra practice in either during a quarter, no credit will be made for the same for the remainder of that quarter.

If students break windows, bowls, pitchers, soil or tear wall paper, unnecessarily abuse or tear beds and bed clothing, or do other damage to house or household articles, the damage will be assessed, and, if not paid by them, will be sent home on their quarterly accounts.

Money for accounts may be sent by postoffice or express money order, by check or draft on New York, New Orleans or Memphis or by registered letter. Paper of any of the kinds mentioned will be cashed for pupils in our office without collection charges. However, if a check is sent on a bank outside the money centers, either to us or to any of our pupils, the cost of collection will be at the rate of twenty-five cents per \$100, with a minimum rate of ten cents on small checks, and this cost of collection will be deducted from such checks, whether they be cashed or credited on accounts.

Please address all business letters and make all paper payable to Lowrey & Berry, and not to individual members of the firm.

If there should be any misunderstanding about accounts, or about anything whatever, write us a courteous letter and prompt explanation will be made.

Books, Stationery, Etc.

School books, sheet music, art material, etc., are kept in the College, and will be furnished at low prices for cash. To be self-sustaining at our prices, our supply department must be on a strictly cash basis. No accounts will be opened for school supplies. Parents should either furnish daughters about \$10 each for this purpose, or send that amount to us on entering pupil. If this deposit is made with us, a credit passbook for the amount payable in school supplies will be issued. Any part of the book not taken up will be refunded in cash or passed to patron's credit when pupil leaves. The cost of a girl's books and stationery, like the cost of her clothing, depends so much upon her tendency to economy, and the care she takes of them, that it is hard for us to estimate what this will be in any case. Some girls spend less than \$10 for books and stationery, while others spend much more than that. In this, as in all other matters, we try to influence our pupils to use all the economy that is consistent. We do not think it wise, however, for pupils to be hampered in their work by the lack of necessary things in these lines. In the school as in the workshop, a reasonable supply of suitable tools is essential to efficient work.

If a student wishes to rent her books, we simply sell her the books and then buy them back when she has used them, making a reduction in price according to the time the books have been used and the abuse they have received. We take back such books only, however, as we expect to use with future classes. We do not agree to take back any book that has been unnecessarily marked or mutilated.

Students pay for their own chemicals used in Physics and Chemistry classes. This generally amounts to only one or two dollars for the session.

Losses, Money for Personal Use of Pupils, Etc.

We will not be responsible for money or any other article lost by theft or otherwise, unless the same has been deposited in our office for safe-keeping and so accepted by us. We will in no case be responsible for loss by storm or fire.

As we do not allow girls to make accounts at stores, and as they need some funds for private use, it is well for parents to keep small amounts with us or with them for that purpose. When such money is deposited with us, it should be accompanied by instructions as to whether we are to supervise closely the spending of it or to let the pupil draw it at will.

Any girl, too, may need dental or medical attention. In all matters where the health or physical care of our pupils is concerned, sudden calls home, etc., we reserve the right to make such arrangements as to us seem wisest, and where pupils have not the money to meet the expenses incurred, to have same charged to parents. In this, as in all other matters, we shall strive to be conscientious and do for a pupil just as we would have her parents do, were our situations reversed.

Unnecessary expenditures of money should not be encouraged. Girls need no fine dresses while in school, and but little money. No matter how much money one may have to spend on his children, lessons of extravagance in school will do them no good, and lessons of economy will do them no harm.

Christmas.

Christmas is a very bad time for girls to travel on railroads. It is a time when there is a good deal of drinking, and when all sorts of people are on the trains. More than that, the weather is generally cold and frequently damp. For these reasons and others, we suspend school at Christmas only one day. We hope that parents will not arrange for their daughters to visit home at Christmas. In addition to the expense, it interferes greatly with their studies, as they seldom return on time, and when they do return, have bad colds or are in a dull condition on account of loss of sleep, exposure, etc. Their health and their work will both suffer from the trip. We generally have some sickness resulting from the trips of even the few girls who go home, and more than once a Christmas trip home has caused a girl to have to withdraw from school and spend the rest of the session in ill health. In fact, it is unwise to encourage a desire to visit home either at Christmas or any other time. Absence from school of only a few days throws a student out of her classes, embarrasses her, hurts her work and gives trouble to teachers. Pupils who remain the whole session are better satisfied and learn faster than those who make frequent visits home.

Boxes of Eatables.

We do most earnestly urge parents to exercise discretion in the matter of sending boxes to boarding pupils. Some patrons have sent their daughters boxes containing meats, cakes, pickles and other heavy eatables. These things were eaten of heartily by the girls and their friends between meals and *even at bed time*. This was very hurtful to health. Of course, these patrons did not intend to be unkind; but it was unkind both to us and the girls for anything to be done that was likely to interfere with the health of our pupils. If parents feel that they must send something from home at any time, we insist that they send fruits or other things that can be partaken of heartily at any

time without danger to health. However, these things are on sale in the stores here, and the express charges on a box would buy quite a nice quantity. We reserve the privilege of adding at any time such restrictions on the receipt of boxes as we may think wise.

General Rules.

1. Pupils are strictly forbidden to receive written communications from anyone except the members of their respective families, without permission from parents or guardians, or to communicate with such persons without such permission. This permission must be sent direct to us by mail (not by the pupil) and we request that it be on a sheet to itself. Not more than three letters a week may be written without special permission from us. If students write a large number of letters, they will form the habit of writing carelessly. Letters written during the five school days must be handed, unsealed, to the teacher appointed to receive them. Postal cards to home people may be written any day, and as many as three postcards a week may be written to any one on the pupil's regular correspondence list. Letter-writing on Sunday is forbidden. All letters of boarding pupils, to and from the postoffice, must pass through the hands of a teacher. Upon request of parents or guardian, we will allow a young lady who is over sixteen years of age to correspond with one young gentleman friend, but in no case with more than one; and we cannot, in any case, give permission to a student to correspond with a young man in the community of Blue Mountain, and we will claim the privilege of forbidding any correspondence which seems to interfere with the student's progress or behavior. As teachers, we are *in loco parentis*, and we reserve the right to investigate, by whatever method seems wisest to us, any case where questionable correspondence is suspected.

2. Pupils must not keep company with any unmarried gentleman (cousins included) without permission from the proprietors or lady principal; and such permission will be given only when we have assurance that it will meet the approbation of parents or guardians, except that, in connection with public exercises at the College, we may occasionally suspend this rule for a half hour or so, when we feel that the diversion will be of benefit to the pupils.

3. All pupils must study at prescribed hours without loss of time, must not talk during study period, and must obey all bells promptly.

4. They must read no novels except those prescribed by the teachers as class work, or those specially permitted by the President.

5. They must observe the restrictions given in the catalogue under the heading, "Dress," page 29.

6. Library rules are posted about the College, and must be strictly observed by all students as well as all others who use or visit the Library.

7. Boarding pupils must wear colored skirts during second and third quarters, and must not wear low-cut shoes between December 1 and April 1.*

8. They must not borrow nor lend clothing, jewelry or money without the permission of the acting Lady Principal.

9. They must have every article of clothing and wrapping, also overshoes and umbrellas, plainly marked.

10. They must keep their rooms in order.

11. They must not have any books in their possession, except school books, Bibles or books from the Library, without permission from the President.

12. They must take school work from our regularly employed teachers only.

13. Boarding pupils must not make visits, even from one boarding department to another, without permission from some teacher, or the head of the department in which they board.

14. They must not visit out of town without permission from the President or Lady Principal, and this permission will not be given without first conferring with parents or guardian.

15. They must not make visits, even from room to room, on Saturday mornings and during certain prescribed hours on Sunday afternoons.

16. They must not change rooms or roommates, even for one night, without the consent of the lady principal, or the head of the department in which they board.

17. They must attend to whatever daily physical exercises may be prescribed.

Any pupil who assists another in violating a rule or is otherwise accessory to the violation, will be considered guilty of a violation herself, and dealt with accordingly.

Any of these rules may be suspended for a time if it should be considered for the interest of the student. Other rules may be added at the discretion of the Faculty.

Young ladies who cannot be induced to submit willingly to wholesome restrictions are not desirable as students, as they are not likely to be benefited, and would add nothing to the credit or interest of the College. Such pupils will not be retained.

*In this changeable climate, every girl should be provided with both heavy-weight and light-weight underwear.

Announcement.

The Thirty-Eighth Annual Session will open Wednesday, September 14, 1910, and close Thursday, June 1, 1911. While students can enter at any time, yet we want to insist that all arrange to be here the first day. As shown in the next article, there will be special arrangements on the various railroads for the students who come at the opening. It will be much better for a girl's studies if she can come at the opening and be classed with the other pupils on the first day. There will be no vacation during the session; only one day will be given at Christmas. Please don't arrange for your daughter to go home at Christmas, or at any other time during the session. It will be best for her to come on the first day and stay until after the close of the session, with no interruption of her work. (See article on Christmas.)

Notice.

At the opening of our session for several years past we have had the following special arrangements:

The Frisco has run a special train from Memphis on the day before our opening. It has left Memphis after the arrival of the morning trains on the various roads. The Y. & M. V. Railroad has, when needed, run a special coach for our pupils, leaving Vicksburg on the train that passes there about midnight Monday night, and reaching Memphis in time for our special train by the Frisco. The Illinois Central has run a special coach from McComb City and one from Jackson, the two coming on the same train and connecting at Holly Springs with the special train. The M. J. & K. C. has furnished special coaches from Laurel. Other roads have made arrangements from year to year as the patronage from their territory justified. These special trains and special coaches have been in charge of representatives of the College, and have run through to Blue Mountain.

Early in September we will arrange for special equipment needed for bringing pupils to the opening of our session, and will mail out a circular giving full information as to routes, tickets, etc. This circular will be sent to all who have rooms engaged and to others who ask for it in advance. (See page 17)

ALUMNAE

1875

- Mrs. Janie Lowrey-Sanford Graves Inter Canton, China
 *Mattie Whitlow.....EnglishArkadelphia, Ark.

1876

- Mrs. Mamie Hill Fant.....English.....Ripley, Miss.

Velma Bene	Blue Mountain, Miss.
Carey Lake Carney	Slaughter, La.
Effie Wright Chastain	Guadalajara, Mexico
Mary Robbins	New Albany, Miss.

*Deceased.

HOW TO REACH BLUE MOUNTAIN.

In past years some people objected that Blue Mountain was "inaccessible" because it was not on a through line of railroad. As shown by the above diagram, we are now on the N. O., M. & C. R. R., which is complete and in operation from Middleton, Tenn., to Mobile, Ala., and crosses every important east and west line in the State. Note, too, that we are in a square, bounded by four of the most important railroads in the South. At the four corners of the square are the four junction points, Holly Springs, Tupelo and Corinth, Mississippi, and Grand Junction, Tennessee. This gives us easy outlet to the whole world, and the various connections we can make are wonderful. One can leave Blue Mountain in the afternoon and spend all or much of the next day in either of the following cities: Memphis, Little Rock, St. Louis, Kansas City, Chicago, Louisville, Chattanooga, Birmingham, Atlanta, Nashville, New Orleans, Montgomery or Mobile, and the return trip can be made as quickly. How many towns in Mississippi have better connections with the outside world? Sometimes people are laid over from twelve to twenty hours in coming to Blue Mountain, and come in feeling that we have a hard place to reach; but the fault comes from their failure to investigate as to the best route or the failure of a railroad agent to ticket them by the quickest route. Indications are that the N. O., M. & C. R. R. will be built north from Middleton and that we will soon be on a thoroughly-equipped through line from Mobile to Chicago. (This was formerly the M. J. & K. C. R. R.)

Blue Mountain Post Cards

I am pleased to offer seventeen nice colored post cards, each showing a different Blue Mountain view, for twenty-five cents. *Any three of the cards for five cents. Remit in one cent stamps*
